## Experience

Enflick Inc.
Waterloo, ON

Mobile Applications Developer (Co-op)

December 2012 - April 2013

- Completed a technical rewrite and visual redesign of the TextNow iOS application in Objective-C
- Developed highly flexible and dynamic user interfaces for use within TextNow
- Designed an automated testing framework to significantly increase iOS test coverage
- Created a TextNow Chrome Extension during a company wide hackathon in Javascript
- Salesforce.com Work.com (Rypple)

Toronto, ON

Ninja Software Developer (Co-op)

April – August 2012

- Developed both client- and server-side code in Java using GWT with test-driven development
- Collaborated on the design and development of front-end and REST APIs for search and notifications
- Completed UI overhauls on emails and parts of the Work.com application in HTML and CSS
- Increased overall test coverage on both client- and server-side code by over 10%
- The Syndicate Toronto, ON

Writer, Pirates of the Burning Sea

September – November 2009

- Operated within the extremely tight schedule of the project and delivered all assigned work on time
- Called upon to complete last minute revisions to ensure the product was released to print as scheduled
- The Syndicate Toronto, ON

Writer, Warhammer Online

July – September 2008

- Mapped large areas of the Warhammer Online game world
- Wrote detailed supporting documents inserted alongside each map
